

Personal Profile Arina Palm

CEO of Aether Training cc

"Imported" from Cape Town and with eight years Gauteng exposure behind me I said farewell to the corporate world. After 16 corporate years I stepped into the "grown-ups" world, i.e. founded Aether Training.

Today Aether Training is an **accredited** service provider (No. 0756) and registered with Service SETA. We are proud of our personalised service, based on a combination of experience, skills, talent and off course passion. It is passion that drives one to reach your objectives, to develop other individuals into empowered and confident contributors in society and to end a project with the same level of energy when you started the project.

My **strengths** are within the research and development of our course material and to develop employee development programmes that are customised to our clients' needs.

I am also a Director and an active shareholder in a **BEE** consulting organisation, Ukhozi Consulting specialising in electrical engineering, human resource and employee development. Ukhozi Consulting is a registered training and employee development service provider.

I maintain a **balance** in my life through my participation within community and service related projects. I am a member of Rotary International. I became the first female Rotarian of the Rotary Club of Waterkloof in Pretoria and subsequently held the position of Director of Community Services for two years running. I have been appointed to the 2006/2007 vice president chair and look forward to further help and support the disadvantaged and poor communities in conjunction with my passion to develop and empower individuals to exceed their wildest expectations.

Photography is very close to my heart and a definite part of my **leisure** time. I dream of extensive travels, my own photographic exhibitions and, and, and! Developing my own colour prints is a treat – something I do too little of. Digital photography slips into the category of quick photo sessions – perhaps at a community related project or a training session in action - with urgent development requirements.

You are invited to visit our website at <http://aethertraining.co.za> to find out more about our personal and career development workshops and seminars.

May the year 2006 be a truly blessed year to you and your loved ones.

Arina Palm
